

Instructions for Magnolia Carts Fold-down Sneezeguard

Step 1: Attach side pieces with a Phillips head screwdriver and enclosed screws. Two screws per side. Gently lay each side piece down upon the inside sliding glass lids

Step 2: Have someone hold the front piece in place while you attach it with a Phillips head screwdriver and enclosed screws. Three screws for the front piece.

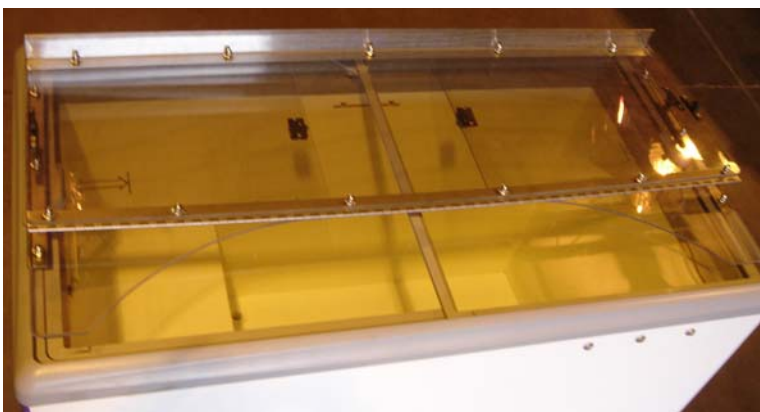

Step 3: Lift up one side piece and bring it and the front piece together and snap into place. Repeat with the other side.

Step 4: Fold top piece over and snap into place onto each side piece.

Step 5: Make sure glass sliding lids are locked into place before folding down sneezeguard. When folding back down, fold down side pieces first. Then front and top piece lays down on top of side pieces.
